

# PLANT RENTALS

OOLTEWAH NURSERY & LANDSCAPE CO., INC.

***Living plants  
to beautify  
your special event***

**Ooltewah Nursery offers plant rentals for your upcoming event.** Rental plants may vary according to season, and some plants simply don't travel well. Therefore, not all nursery plants are available for rental at all times. We have selected certain plants that we believe will travel well to your event and continue to look great throughout the time they are with you. Plants available for rental include, but are not limited to:

- Certain evergreens
- Certain ferns
- Certain houseplants

The rental fee for plants is only 20% of the retail price for each plant, which means big savings for you. For your convenience, we also offer delivery and/or pickup service as needed for a delivery fee each way.

Plants are living things that require care such as watering. It is important to understand that you are responsible for the plants while they are in your care. If plants become damaged or lost, you will be held financially responsible.

**Ask a cashier for more information as to which plants are currently available for rental.**
