

# Residential Landscape Designer

## Requirements

The ideal candidate shall possess an undergraduate degree in landscape design or other horticulture related field. Experience is a plus. Essential skills include: superior people skills, time management, decision making, complex problem solving, good verbal and written expression, ability to manage multiple projects simultaneously, ability to read and understand architectural drawings/blueprints, ability to sell, a mindset of customer satisfaction, good listening skills, creativity a must. Must have a viable vehicle for transportation with a clean driving record. Must pass a drug test and e-verify.

## Job Description

Travel to meet with customers at their homes, and utilize his/her creative talents to design a custom landscape plan that meets the customer's goals and needs. Will supervise and direct the landscape installation work according to pre-established company standards working closely with the landscape crew chief as the project is installed. Must communicate well with his/her direct supervisor, the landscape crew chief, and the customer keeping all parties informed regarding projects, from initial consultation to finished project, and beyond.

Hourly pay and benefits. Paid weekly.
